MEMBER SPOTLIGHT

HOW DOES SHE DO IT?

Nicky Mehta - Nicky Mehta London

BACKGROUND

Nicky developed her love of sport at school driving her to pursue a career in the sports industry. After studying Business French at Oxford Business College she embarked on a years adventure throughout Asia & Australia, during which time she worked on the opening of a David Lloyd club in Sydney running the membership team. Once back home, Nicky's was a PA in a sports events company focussing on professional golf in Kiawah Island, South Carolina and competitive sailing in Langkawi, Malaysia.

CAREER

With itchy feet to see more of the world, Nicky made the move to Luzern, Switzerland working on Tennis Masters Series events. Here she loved travelling to the European & North American tournaments running their on-site sponsorship offices. **The most memorable point in her career? Being stuck in a lift with Andre Agassi, Pete Sampras & Tim Henman in the Hotel Cavalieri in Rome. One of her most fascinating (and hilarious) hours on the tour!**

Relocating back to London, Nicky ran the hospitality programmes for Vodafone's sponsorship of Manchester United and the England Cricket Team. Here she mastered many skills including dealing with demanding clients and 'determined' personalities! From sport to the City at ABN AMRO Bank Nicky organised client corporate entertainment, deal closing dinners, golf days, ski trips and partner programmes developing an extensive black book of party suppliers, venues, hotels & restaurants. After five years, Nicky took a step out of events and into her other hobby - interior design. As the Operations Director at Helen Green Design in Chelsea she was inspired by the creative team of 25 designers and worked alongside international property developers and investors. After 5 inspiring years Nicky took a career break to have her 2 daughters.

THE JUGGLE

Spring forward to 2014 when Nicky played on her strengths and built on all the experience from her international corporate career and founded Nicky Mehta London, a virtual service offering EA/PA support to boutique businesses, entrepreneurs and HNWI. Her team of 3 are involved in a broad spectrum of industries including music, private equity, photography, medical, interior & garden design in addition to private lifestyle clients.

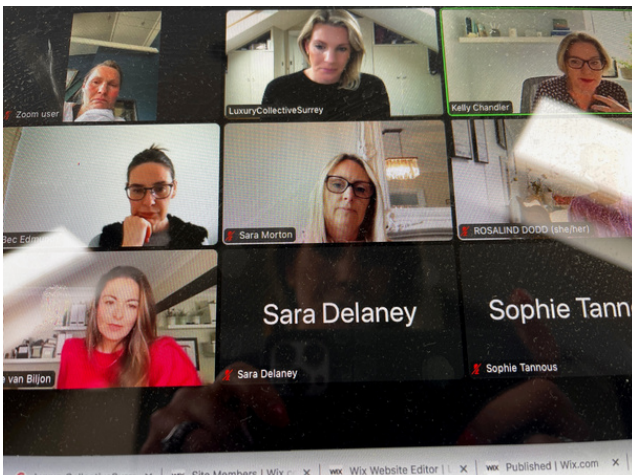

Initially, sourcing clients was somewhat of a challenge as she launched at a time when virtual working was not common place. Through strong client focus and a clear business model it has proved a productive way of working and the world swung to align to this method.

Nicky has found one of the keys to balance is to be transparent with clients from the get go. She sets mutual parameters to ensure she builds solid relationships and agrees expectations to maximise productivity and suit both sides of the partnership. Nicky is very proud of her business and loves to inspire her daughters to believe you can be whoever you want to be if you have ambition & determination, and most importantly enjoy the adventure along the way.
